CHIKNS.

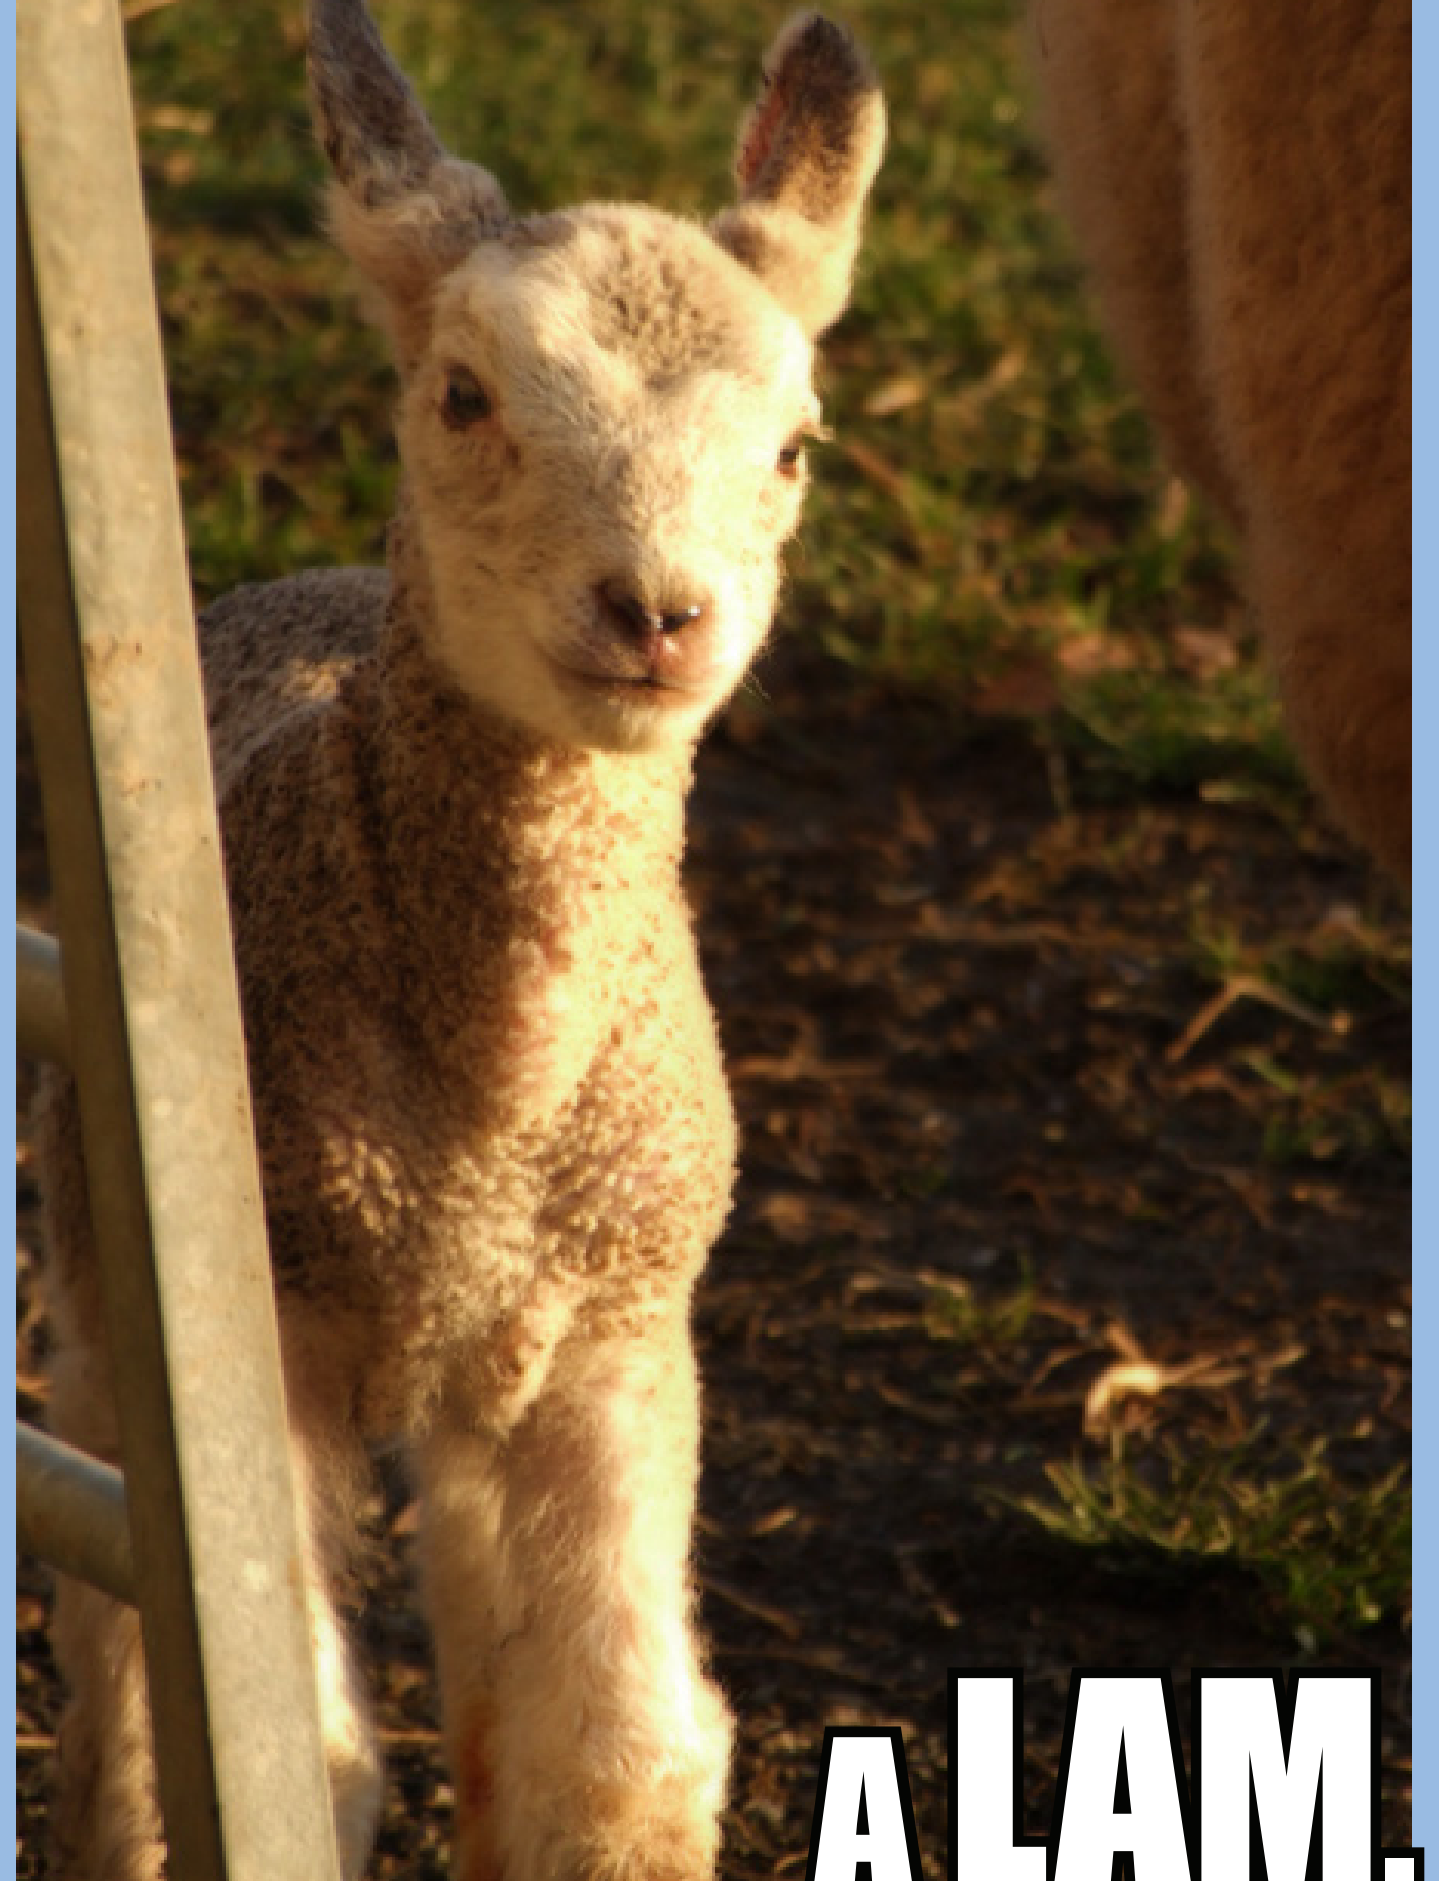

MORE CHIKNS.

sometimes chikns lay birth to a egg and if a mummy rooster and a dad-dy hen love each other very much they have a special hug and the eg has hatch into chickn. if no chickn loves the mummy chickn and she lonely like spinster cat lady then she had lay birth to unfirtle eg which make for good ömlet. this remind me of joke i heard when wating for a egg to hatch into chickn baby. "helo watress can i have an omlet pls" "yès" LOL BECOS THERS AN UMLET OVER THE E & UMLET IS LIKE OMLET LOL! these chikns are mine and the one who's eye u can c pooking out at u is cald BRUSHIE BRUSHIE BRUSHIE becaus of a b@ wif a toothbrsah on it's head lol. sumtimes a chikn can't get out of it;s eg an u hav 2 help it or i'tl died liek BRUSHIE BRUSHIE BRUSHIE almst did becos it had it's wing stuk in inside of eg. weh a chikn dise it gose to chikn hevn unles it was a bad chikn then it gose to chikn hel (tescos with the roastisery chikns) and it b& from comin bak (hevn chnikns can cum bak as chikn an-gles and can perfurm mirricles). this am troue an i am not lyin or makin this up lol. one tiem a chikn dide by fox and wen focks kild it it became chikn grim repear cald Deathbeak and Deathbeak makes it rain blood.

these creachers are calls LAMB. they r small sheeps who have less and are thinner. once, a lam accidentally it's whole bottle, there were bugs EVERYWHERE! o lol those were good times. i kep lams in the filde wiv sheeps who are big lams with fat on them and the pigs liek in th front covr of LOLmagstacine. sumtimes lams are noisy i fink ther bad when ther silent becau i once 8 a mans livr wiv sum fava beans HFHFhfhHFHfh. as far as im aware, lams rly exist and i did'nt just make them up. id haf to science them up in this out of nothin (science is now a verb, watch me science up in this motherland) and O YES I REMBER NOW theres was a sheep cald Dolly who was clone and clone shep died of age half time after its cloanbirth and so Dolly1 and Dolly2.jpg both died and i think Dolly2.jpg was radioactive because she not hav ful life but halflife so they must observe with hasty. fink of it like this: a norange was borned and it hav 1 yr to liv, it got clone at 6 monf so its cels r tired alredy from 6 monf existanse so baby ornange die 6 monf after it born nd oringinal orage die at 1 yr after it borned so the die at same time. like that but shep not orange bcos lamb mother Dolly was white and coverd in wool.

O LOOK LOL.

A LAM.

gROOVE THE dOG>

this is GROOVE he is Jack Daniels Rusel Terriorist so he not alowed in the ariports. the pig' sdont like him becos he is mean and trise to atak them but hes to small lol. if pigs got outthe pen they woud kil grove and he wud be died. wen i arive hom from not bein @ home groov will jump up and he mite be muddy byt he mite not be muddy so i mite get muddy when he jumpse up. he does it cos hes excited but he peeds wen he jums up so wen i hav frendse over he weeds ons them and they go all >:U and angry. one tiem he slept in his baset and the cat slept in his basket wif the grove and they were aslep togethr it was rly cute :3

LOL.poregrove cannt get thru fens to anoy lams and pigs and so he sit ther sad and muddy alone wif no frense bcosheweeds on them to much SILLY GROVe YOU SHUD NOT WEE. owel he cans help it if he gets exited we alredy took his bals away thers nothin more we can do to help him be more calm and normanl. hes crazy lol. i like him tho he is rly lovly and sweet to.
